The Matrix

Par OMNIMAR

Album : The Matrix

This is our last dream

Scroll down to escape

But if you let me in

There's no turning back

This is our last try

To find here something real

Into the rabbit hole

Your fate is what you feel

You belong to me

In the Matrix the night is bright

In the Matrix our minds will be free

In the Matrix the night is dark

Realise the truth

You belong to me

Your future is unknown

Not sure if you're awake

We suffer since we're born

You know your greatest strength

We fight for hundred years

This wonderland we built

Memories erased

It's been reset again

The Matrix has you

This is our last dream

Scroll down to escape

But if you let me in

There's no turning back

This is our best dream

You cant explain but you can feel

What controls your life

You belong to me

In the Matrix the night is bright

In the Matrix our minds will be free

In the Matrix the night is dark

Realise the truth

You belong to me
