Nerve

Par Orbit Culture

Album : Nerve

Yeah! This tension is crawlin' in me

I let it come in, closer and closer to me

I can't let it out

Can't let it linger, I'm sufferin' inside of me

It starts to weigh

I can't keep this all inside, so wait for time, it's fadin'

I can't keep this all inside, in me (nothin' now matters, broken core)

I can't keep this all inside, it crawls inside my body

I can't keep this all inside, in me (if I let go of life, who'll save?)

This tension is crawlin' in me

I sense it close in, sharper and sharper, it feeds

I can't push it out

Can't let it linger, I'm sufferin' inside of me

It starts to weigh

In the shatters of life, I hope I'll see the day

Of another sun and of another day

I can't keep this all inside, so wait for time, it's fadin'

I can't keep this all inside, in me (nothin' now matters, broken core)

I can't keep this all inside, it crawls inside my body

I can't keep this all inside, in me (if I let go of life, who'll save me now?)

I've been away for far too long

I've been away since I was born

I've been away in chaos blindfold!

(Nothin' now matters, broken core)

I can't keep this all inside, so wait for time, it's fadin'

I can't keep this all inside, in me (nothin' now matters, broken core)

I can't keep this all inside, it crawls inside my body

I can't keep this all inside (if I let go of life, who'll save me now?)

In this life and corruption, how free am I?

I'm a broken soul with a broken mind

Broken mind

Afraid of all this light

My broken mind

The end of a broken nerve

I've been away in silent pain

I've been away from the twilight's gaze

I've been away my cold terrain

I've been away

I want the world to burn

I hope it's calm within the afterlife

If it's comin' for the nerve

I hope it's comin' in the afterlife

A broken soul is just another thing

A broken mind with the nerves severed

Broken mind

Afraid of all this light

Broken mind

The end of a broken heart
