# I Can Fly

Par Pan

*Album : Pan & Regaliz*

You know, baby, that I can fly

I'm sorry, baby, but I will go

With a little bit of loneliness

I can't have wings and strings to fly

I can fly

**There is something floating on my mind**

**Soon I will go, I will go away**

**The wind is singing out on me**

**And makes the earth talking me of love**

I can fly

Ashes of whole wide generation

Are dancing out on, out on me

My temples are breathing with new life

And I think maybe also can fly

I can fly

**There is something floating on my mind**

**Soon I will go, I will go away**

**The wind is singing out on me**

**And makes the earth talking me of love**
