Psycho Holiday

Par Pantera

Album : Cowboys From Hell

Empty and sweating

Head lying in your hands

Shaking in the corner

Done too much alcohol

Gotta get away from it all

'Cause it feels my blood is freezing

My self insanity has taken its toll

Frustration

Has taken

Its control

Now I'm far from home spending time alone

It's time to set my demons free

Been put to the test, my mind laid to rest

I'm on a psycho holiday

Shot down on sight

You are the target of attention

One woman here, another there

You can't please all the people all the time

Can't tell the strangers from the friends you know

Frustration

Has taken

Its control

Now you're far from home spending time alone

It's time to set your demons free

Been put through the test, your mind laid to rest

You're on a psycho holiday

I'm strapped in for life

Is this where I lived or where I died

You want my money

You take my space

My mind is telling me to leave this place

My self insanity has taken its toll

Frustration

Has taken

Its control

Now I'm far from home spending time alone

It's time to set my demons free

Been put to the test, my mind laid to rest

I'm on a psycho holiday

Now I'm far from home spending time alone

It's time to set my demons free

Been put to the test, my mind laid to rest

I'm on a psycho holiday

Now I'm far from home spending time alone

It's time to set my demons free

Been put to the test, my mind laid to rest
