# Psycho Holiday

Par Pantera

*Album : Cowboys From Hell*

Empty and sweating

Head lying in your hands

Shaking in the corner

Done too much alcohol

Gotta get away from it all

'Cause it feels my blood is freezing

**My self insanity has taken its toll**

**Frustration**

Has taken

**Its control**

**Now I'm far from home spending time alone**

**It's time to set my demons free**

**Been put to the test, my mind laid to rest**

**I'm on a psycho holiday**

Shot down on sight

You are the target of attention

One woman here, another there

You can't please all the people all the time

Can't tell the strangers from the friends you know

**Frustration**

Has taken

**Its control**

Now you're far from home spending time alone

It's time to set your demons free

Been put through the test, your mind laid to rest

You're on a psycho holiday

I'm strapped in for life

Is this where I lived or where I died

You want my money

You take my space

My mind is telling me to leave this place

**My self insanity has taken its toll**

## Frustration

Has taken

**Its control**

**Now I'm far from home spending time alone**

**It's time to set my demons free**

**Been put to the test, my mind laid to rest**

**I'm on a psycho holiday**

**Now I'm far from home spending time alone**

**It's time to set my demons free**

**Been put to the test, my mind laid to rest**

**I'm on a psycho holiday**

**Now I'm far from home spending time alone**

**It's time to set my demons free**

**Been put to the test, my mind laid to rest**
