O Star**

Par Paramore

Album : The Summer Tie Ep

Oh, star, fall down on me

Let me make a wish upon you

Hold on, let me think

Think of what I'm wishing for

Wait, don't go away

Just not yet

'Cause I thought I had it

But I forget

And I won't let you fall away from me

You will never fade

And I won't let you fall away from me

You will never fade away from me

And now I let my dreams consume me

They tell me what to think

But hold on, hold on

Why am I dreaming? Yeah

Wait, don't go away

Just not yet

'Cause I thought that I had it

But I forget

And I won't let you fall away from me

You will never fade away

I won't let you fall away

You will never fade away

And I won't let you fall away (Fall away)

You will never fade away (Fade away)

And I won't let you fall away (Fall away)

From me, you will never

Oh, star, fall down on me
