Sad

Par Pearl Jam

Album : Live At The Gorge [01-09-2005] -CD2-

All the photographs were peeling
And colors turned to gray, he stayed
In his room with memories for days, he faced
An undertow of futures laid to waste, embraced
By the loss of one what he could not replace

There's no reason that she passed
And there is no god with a plan, it's sad

And his loneliness is proof, it's sad

He could only love you, it's sad

The door swings to a passing fable
A fate we may delay, we say
Holding on, delivered in our own brace
Eleven nights he laid in bed
Hoping that dreams will bring her back, it's sad

And his loneliness is proof, it's sad

He could only love you, it's sad

Holding his last breath, believing

He'll make his way

But she's not forgotten

He's haunted

He's searching for escape

If just one wish could bring her back, it's send

And his loneliness is proof, it's sad

He will always love you, it's sad
