# River So Wide (LP Version)

Par Phil Collins

*Album : Dance Into The Light*

If we can cross at the place that divides us

Cross the river, the river so wide

If we can smother the pain that's inside us

deny the demons, that wait by our side

We can find, find the light

The nights are filled with the light of the same moon

We share the comfort of the same stars

The days are bright with the light of the same sun

**That don't matter, can't you see what we are**

**What we are, what we become**

Keep our sights on the way ahead

Don't look back, it won't help us now

The storm we left so far behind

Seems a dark memory

It starts to fade

Until we see the light, we will not be safe

We're all sink or swim in the same ocean

Break our skin and we will bleed

Our minutes pass with the same motion

We face the same danger, we share the same needs

Ah, we're all the same

You and me

**Keep our sights on the way ahead**

**Don't look back that won't help us now**

'Cos upstream the river, it gets to wide

So we must build that bridge

Right here, 'cos if we wait we will not reach the other side

You see under clear blue sky

The winds have changed and blowing hard and long

And there not stop to rest 'cos the change is gonna come

Our nights are filled with the light of the same moon

Share the comfort of the same stars

Our days are bright with the light of the same sun

**That don't matter, can't you see what we are**

**What we are, what we become**

**Keep our sights on the way ahead**

**Don't look back that won't help us now**

'Cos upstream teh river, it gets to wide

And if we don't build that bridge right here, right now

You know we'll never ever reach the other side
