Bourgeois

Par Phoenix

Album : Bankrupt! (Deluxe Edition) Disc 1

Darling you never know

It started years ago

When you're less than kind of done

An adolescent singing out real loud

Some wild English tune

Sing sha la la la la la la

La la la la la la la la

We'll never talk it out this time

You'll learn from all of us

When your time's up

How it all began

Seriously dumb

When you're less than kind of certain

An adolescent calling out real loud

It's what singers do

Sing sha la la la la la la

La la la la la la la la

We'll never talk it out this time

You'll learn from all of us

When your time's up

You bet your life on a cruise ship

Bartending crucial lies

We're destined, wise and we socialize

Bourgeois

Why would you care for more?

They gave you almost everything

You believed almost anything

Bourgeois

Your fire's a false alarm

They gave you almost everything

You believed almost anything

Darling you'll never know

Darling you'll never know

When you're less than kind of done

Adolescence's looking at you now

Like foreign legions do

Sing sha la la la la la la

La la la la la la la la

We'll never talk it out this time

You'll learn from all of us

When your time's up

You lost your mind on a cruise ship

Bartending crucial lies

We're destined, wise and we socialize

Bourgeois

Why would you care for more?

They gave you almost everything

You believed almost anything

Bourgeois

Your fire's a false alarm

They gave you almost everything

You believed almost anything
