Walking Together

Par Piet Veerman

Album : Top 40 En Tipparade uit 1987

Love should be eternity

And I, pray that you, will stand by me

My soul's laid bare, here while I hold you

Oh after all the trials, that we've been through

I'm tired of walkin' all alone

Without you I feel so far from home

From now on babe, we'll walk together

Now I, don't know why, I made you cry

Everytime I see your love for me I found my Paradise

Then I realize, you're guidin' me

By the love light in your eyes

Everytime I hear your heart so near, time it seems to fly

I recall the day you came my way

Brought a meaning to my life

Amor my love, we can't go wrong

Now you'll be a friend when nights grow long

I know that we're made for each other

I'll be by your side until I die.
