# Down to the Well

Par Pixies

*Album : At the BBC (Live)*

Betty always knows

Betty always tells

She's laughing desperately

She said it felt like a river inside her bones

When she went down to the well

I'm gonna be with her

She's gonna take me there

Lead me by my hand

Her body a rocking chair for my soul

**When we go down to the well**

I can hardly wait, baby

**I can hardly wait**

**'Til we go down to the well**

Been thinking to myself

And if a love ain't long

What matter does it make

If there'll be favorite songs playing in my head

**When we go down to the well**

I can hardly wait, Betty

**I can hardly wait**

**'Til we go down to the well**

**Down to the well**

**Down to the well**
