Follow The Cops Back Home

Par Placebo

Album : Ancienne Belgique

The call to arms was never true

Time to imbibe, here's to you

I'll tell you stories bruised and blue

Of drum machines and landslides

Just one more round before we're through

More psychedelic yuppie flu

It's such a silly thing to do

Now we're stuck on rewind

Let's follow the cops back home

Follow the cops back home

Let's follow the cops back home

And rob their houses

The call to arms was never true

Let's take a ride and push it through

Suspended animation in blue

Blame it on apartheid

Let's spend the night in Jimmy Choo's

I'll give you coats and cheap shampoo

I'll give you nothing else to do

Now we're stuck on rewind

Let's follow the cops back home

Follow the cops back home

Let's follow the cops back home

And rob their houses

Let's follow the cops back home

Follow the cops back home

Let's follow the cops back home

And rob their houses

The call to arms was never true

I'm medicated, how are you?

Let's take a dive, swim right through

Sophisticated points of view

Let's follow the cops back home

Follow the cops back home

Let's follow the cops back home

And rob their houses

Let's follow the cops back home

Follow the cops back home

Let's follow the cops back home

And rob their houses
