# I Thought I Heard You Calling My Name

Par Porter Wagoner

*Album : The Chronological Classics: Porter Wagoner 1960-1962*

I said goodbye to you this mornin'

With only these words to explain

I said I've found someone I love better

But I still hear your voice call my name.

**I thought I heard you callin' my name**

**Funny I still feel this way**

**Your voice seemed so close but I knew**

That by now you were many miles away.

--- Instrumental ---

I walk through the streets of the city

People passin' by think it's so strange

I'm talkin' but there's no one beside me

I thought I heard you callin' my name.

I thought I heard you callin' my name

Funny I still feel this way

Your voice seemed so close but I knew

That by now you were many miles away...
