Over The Rainbow

Par Powerful T.

Album : Super Eurobeat 125

Over the rainbow

Over the stars

Into the rainbow

I'm gonna tell you now

I wanna show you how

You can imagine what I like

You're making me hot with your desire

Sharing the passion you got inside

Until the storm has gone

Sticking around me, open your eyes

I'll show you babe

Over the rainbow

Feeling all right

I was looking for love anytime for

Catching you babe

Follow the rainbow

Over the stars

I can find all your love and desire

Into the rainbow

Rockin' me just tonight

Look at the moonlight now

Love is a weapon, don't be shy

Gotta believe, give me your fire!

Sharing the passion you got inside

Until the storm has gone

Stickin' around me, open your eyes

I'll show you babe

Over the rainbow

Feeling alright

I was looking for love anytime for

Catching you babe

Over the rainbow

Over the stars

I can find all your love and desire

Into the rainbow

I'm gonna tell you now

I wanna show you how

You can image what I like

You're making me hot with your desire

Sharing the passion you got inside

Until the storm has gone

Stickin' around me, open your eyes

I'll show you babe

Over the rainbow

Feeling alright

I was looking for love anytime for

Getting you babe

Over the rainbow

Over the stars

I can find all your love and desire

Into the rainbow

Over the rainbow
