Destroy Me

Par PRESIDENT

Album : Destroy Me

[Intro]

And I let you destroy me with a blunt scratch through my veins

And I watched you just take away everything

[Verse 1]

It's over now and you say it's pouring out, you're overthinking

Time for you to grow up 'cause you said you'd had enough

Loosen with the shakes, same fucking mistakes

I can't keep it straight, I'd just forgotten

[Chorus]

That I let you destroy me with a blunt scratch through my veins

And I watched you just take away everything

I keep trying to restore me, let it all just wash away

But I'm stuck in a place that I can't escape

[Post-Chorus]

Get me out of this hell

Get me out of this

[Verse 2]

Tripping out and you say the truth is out and I'm oversleeping

Tim? for me to go home 'cause I think I've had enough

Loosen with the shakes, same fucking mistakes

I can't keep it straight, I'm at the bottom

And I let you destroy me with a blunt scratch through my veins

And I watched you just take away everything

I keep trying to restore me, let it all just wash away

But I'm stuck in a place that I can't escape

[Post-Chorus]

Get me out of this hell

Get me out of this hell

Get me out of this hell

[Outro]

And I let you destroy me with a blunt scratch through my veins

And I watched you just take away everything
