Luskus Delph

Par Procol Harum

Album : Broken Barricades

Tulip's lips, oh, Luskus Delph

Your baking breath breeds body ex

With silken measures try to gauge

The inside sweetness of your cave

Peach preserve your simmering jewel

Hid away like orphan's gruel

Help me find the widow's crack

Hold my stick like sealing wax

Almond's eyes, my Turkish pearl

Burn me up, sweet oyster girl

Shove me in your steaming vat

Make me split like chicken fat

Almond's eyes, my Turkish pearl

Burn me up, sweet oyster girl

Shove me in your steaming vat

Make me split like chicken fat
