# Me and You

Par Queen

*Album : Love So Strong VL2*

I'm tellin you

It'll be us two

Through and through

It's me and you

I'm tellin you

It'll be us two

I promise you

It's me and you

**Neva gonna be a whateva**

**Any storm we can weather together**

**It's neva gonna get any betta**

**Than me and you**

**You can turn a storm into sunshine**

**You can light my world up with your smile**

**Tell me that you'll love me a life time**

**Me and you**

Open up ya eyes I can see a ray of sunshine  
Blinded by the glow that's radiating outta love ties  
Beam in with the light  
Bouncing back off a high tide  
Wave of heartbeats got me spinnin  
What a wild ride  
Keep a hard on for body  
Got me tore up  
Feelin for your touches  
Got me gushing like a big cup  
When you put it on me  
Beat it down like a young buck  
Fillin it so good I'm speaking tongue  
Ya got me fucked up  
When you hold me in ya arms  
I know my life is so right  
We glowin in our Sewin  
We surrounded in Devine light  
Holdin strong for the long haul  
A fortress for the good fight

**We coming up**

We blowin up  
It's round the corner hold tight

**I'm tellin you**

**It'll be us two**

**Through and through**

**It's me and you**

**You can turn a storm into sunshine**

**You can light my world up with your smile**

**Tell me that you'll love me a life time**

**Me and you**

**We don't been through it all**

Yeah, Hell and back

We don't touch the rock bottom

And got it all back

When I touch on your body

I like to touch that back

I'm a beast. I'm a boss.

I'm a fucking gorilla

Give you that thrill like Thriller Manila

**We don't been through it all**

Yeah, you know I'm your getter

I can never forget you

And you'll never be a whatever

You've been my number one since I first met you

Whether any storm

Yeah, we done did it

Turned a dollar into gold

Yeah, we done flipped it

**We coming up**

We blowing up

It's round the corner

And all I'm going to say is

Baby, I told you

**I'm tellin you**

**It'll be us two**

**Through and through**

**It's me and you**

**I'm tellin you**

**It'll be us two**

**I promise you**

**It's me and you**

**Neva gonna be a whateva**

**Any storm we can weather together**

**It's neva gonna get any betta**

**Than me and you**

**You can turn a storm into sunshine**

**You can light my world up with your smile**

**Tell me that you'll love me a life time**

**Me and you**
