# Who Needs You

Par Queen

*Album : News Of The World*

I make it half past six, you come at seven

Always try to keep me hanging round

You little spoilt thing, girl, you kept me waiting

Never contemplating my point of view

This comes as no surprise

I'm a fool for I believed your lies

But now, I've seen through your disguise

**Who needs, well, I don't need, who needs you?**

¡Oh, qué, qué!

Oh, I believed you

Went on my knees to you

How I trusted you

But you turned me down

But it's dog eat dog in this rat race

And it leaves you bleeding lying flat on your face

Reaching out, reaching out for a helping hand

(Where is that helping hand?)

¡Oh, muchachos!

I like it, I like it

Hmm-hmm, ooh-ooh

Well, I don't need you

How I was pushed around

Don't let it get you down

You walked all over me

But don't you ever give in

Taking one step forward, slipping two steps back

There's an empty feeling that you can't forget

Reaching out for a helping hand

When I met you, you were always charming

Couldn't sleep at night 'til you were mine

You were, oh, so, so sophisticated

Never interested in what I'd say

I had to swallow my pride

So naive, you took me for a ride

But now, I'm the one to decide

Who needs, well, I don't need, who needs you?
