# Another Love Song

Par Queens of the Stone Age

*Album : Songs for the Deaf*

You're so impossible, scream and moan it chills my soul

Don't wanna hear you got left behind

All those times you stayed up and cried it's no lie

You did it to yourself like chewed up gum under my shelf

Don't look surprised you must have know all along

**It's just another love song, another love song**

It's never easy it's not hard when you've lost your mind

With you it's sleazy don't tell me your worries

I'm sick, I'll leave you blind

Now the time has come to leave this love that's left you dry

No need to work this out now 'cause you know there's no reason why

**It's just another love song, another love song**

Another love song, it's just another love song

Never told you it would last forever

You can't hold this boy for long, dig it

By the time you read my letter

Baby, I'll be gone

**You're just another love song, another love song**

**Another love song, you're just another love song**

**You're just another love song, another love song**

**Another love song, you're just another love song**
