Cool Thing

Par Rascal Flatts

Album : Rascal Flatts - Me And My Gang

We were wrapped up in a blanket

Red wine buzz kickin' in

A little Sarasota Moonlight

Driftwood fire burning

She was on break from Ohio State

And I was down there selling para sail rides

Just another summer day

Till I strapped her in and watched her fly

Talk about a sunset, all I could see were purples and reds

And her silhouette waving goodbye

She didn't come there looking for love

And the cool thing was, neither did I, neither did I

She dipped down in the water

As I slowed down holding that line

Wet T-shirt on a two piece

We ditched that boat and hung outside

We walked ankle deep in the ocean

You know that place where footprints disappear

Just like that evening she drove away

It will be burned in my mind for a million years

Talk about a sunset, all I could see were purples and reds

And her silhouette waving goodbye

She didn't come there looking for love

And the cool thing was, neither did I

Talk about a sunset, all I could see were purples and reds

And her silhouette waving goodbye

She didn't come there looking for love

And the cool thing was, neither did I and neither did I, ooh
