Megan Is My Friend To The Max

Par Reggie & the Full Effect

Album : Live Acoustic - 10/21

I wrote a letter

To forget her

Forever

Could be the weather

Or just better

Forever

Say that you would, baby

Do what you could, baby

I'm still a liar

For desire

I'm on fire

You're still the only

One for me

Can't you see?

Say that you would, baby

Do what you could, baby

Say you miss having me to push around

Say you wish that you put me in the ground

You're never happy with anything I do

I wrote a letter

To forget her

Forever

Say you miss having me to push around

Say you wish that you put me in the ground

Baby
