# Should Have Been There

Par Regi

*Album : MNM Big Hits 2016.3*

Don't know this people, and their lonely eyes

Walking through the crowd, with my head down

We all got choices, gotta leave, some behind

We all got reasons, to change our lives

**Why am I here? Still chasin' the lie?**

**I should have been there,**

I should have tried,

**It's a long way back, from your head to your heart**

And I-I-I

**I should have been there for you**

**I should have been there for you**

**I should have been there for you**

Oh oh

For you,

Oh oh

**I should have been there for you**

Oh oh

For you,

Oh oh

**I should have been there for you**

Oh oh

For you,

Oh oh

My days are numbered, like a rainbow

I'm walking the streets, in the same clothes

**Why am I here? Still chasin' the lie?**

**I should have been there,**

I should have tried

**It's a long way back, from your head to your heart**

And I-I-I

**I should have been there for you**

**I should have been there for you**

**I should have been there for you**

Oh oh

For you,

Oh oh

**(Ooooh...) I should have been there for you**

**I should have been there for you**

**(Ooooh...) I should have been there for you**

**I should have been there for you**

**I should have been there for you**

Oh oh

For you,

Oh oh

**(Should have been there for you...)**

**I should have been there for you**

Oh oh

For you,

Oh oh

**(Should have been there for you...)**

I should have been there for you...
