Album : Sugarglider

See the sunrise and fall back down again
it's just enough time in between you fog and life
through the seasons, saw somebody rain.
over and over, coming slow
by and by.

By and by, by and by, by and by.

By and by, by and by, by and by.

And and and know I can't.don't bother

Having all. if this full or plenty,
but when it gets me I'm gone,
if only I can go, I can. I'm alone.

Change my ways

but I fly like a bird

. the corner

but I'll be my.

I am . in my arms

and I know about.

you know I like.

walking for sure. the best. my last

By and by, by and by, by and by. x 6
