State Of The Union

Par Rise Against

Album : Live at the Wireless 2009

If we're the flagship of peace and prosperity

We're taking on water and about to fuckin' sink

No-one seems to notice, no-one even blinks

The crew left the passengers to die under the sea

Countdown to the very end

Equality, an invitation that we won't extend

Ready, aim, pull the trigger now

It's time you firmly secure your place in hell

State of the union address

Reads war-torn country, still a mess

The words, power, death and distorted truth

Are read between the lines of the red, white and blue

Countdown to the very end

Equality, an invitation that we won't extend

Ready, aim, pull the trigger now

It's time you firmly secure your place in hell

Your place in hell

Your place in hell

Guilty is what our graves will read

No year, no family

We did nothing (Nothing!)

To stop the murder of

Of people just like us
