# Children [Message Version]

Par Robert Miles

*Album : Children [Motor Music]*

If all the children of the world

Would hold each other's hands

They'll be giving off such a strength

That all the walls of hate, war, and racism

Will fall down

Children know, understand, and believe

That there'll be more and more love and peace

For eternity, love and peace for everybody

**Children of the world, scream your dreams**

**Children of the world, never fear**

**Children of the world, scream your dreams**

**Children of the world, get together, get together...**

**Scream your dreams everybody**

**Scream your dreams everybody**

**Children, oh children**

Children

**Children, oh children**

Children, don't report

**Children, oh children**

Children, yeah, yeah, yeah...

**Love and peace for eternity**

**Love and peace for a future time**

Love and peace for you and I

**Love and peace for everybody**

**Love and peace for eternity**

**Love and peace for a future time**

**Love and peace for everybody**

For everybody

**Every beat, e-every beat...**

**Children of the world, scream your dreams**

**Children of the world, never fear**

**Children of the world, scream your dreams**

**Children of the world, get together, get together...**

**Love, love, love and peace for everybody**

Love, love, love and peace, love and peace

**Love, love, love and peace for everybody**

Yeah, yeah, yeah, yeah

**Every beat, e-every beat...**

**Love and peace for everybody**
