Being left, being left, being left, being left, Being left, being left with me

Narcissus (narcissus, narcissus)

Narcissus

The saddest story ever told

The perfect glory, so all alone

And I could love you 'til kingdom come

I might not deserve you, but I saved you from

The saddest story ever told

Is loving only what you will hold

In your own reflection, when love is here

With all your protection, I hold you dear

The saddest story ever told

The narcissistic glory to be all alone

And I could show you, listen what I say

To fear real love is to give it away

A happy ending would never be

When narcissus dying

Narcissus

Narcissus

Narcissus

Narcissus

Narcissus, narcissus, narcissus, narcissus, narcissus, narcissus, narcissus

Rosebud

Narcissus, touch me, reach out your hand

Oh, if you fall in love with your own reflection

Like it was planned

You would die in love

Failing to feel or to understand

But just I can give

Narcissus, I the nymph

The rosebud

Narcissus, see me turn into sand

If you fall in love with your reflection

You may be damned

But, darling, I could teach you to feel and to understand

Narcissus, my love

Thy love will go

Being left, being left, being left, being left, being left, being left with me

Narcissus

Being left, being left, being left, being left, being left, being left with me

Narcissus

Being left, being left, being left, being left, being left, being left with me

Narcissus

Being left, being left, being left, being left, being left, being left with me

Narcissus

Being left, being left, being left, being left, being left, being left with me

Narcissus

Being left, being left, being left, being left, being left, being left with me

Narcissus

Being left, being left, being left, being left, being left, being left with me

Narcissus

Being left, being left, being left, being left, Being left, being left with me

Narcissus (narcissus, narcissus)

Narcissus

Narcissus

Narcissus (narcissus, narcissus)
