# Here Comes That Song Again

Par Roy Orbison

*Album : The Big O: The Original Singles Collection (disc 2)*

**Here comes that song again**

They're playing that song again

I guess it will never end

**They're playing it again**

**Here comes that song again**

Here comes that old ache within

The story of my life begins

They're telling it again

I'll have to leave

I can't bear it anymore

There must be a place where

They'll play a different score

**Here comes that song again**

**The jukebox must have found a friend**

**My heart will never mend**

**They're playing it again**

**Here comes that song again**

**The jukebox must have found a friend**

**My heart will never mend**

**They're playing it again**
