Feels Like Fire

Par Santana

Album : Santana Shaman

I'm telling you it's over

Now there's an angel

Holding me

My way's easy

Even if you're fallen

Or you're struggling

There's still beauty

In what we do

So que sera

Let's go sailing on

There's a wise man

In every fool

I say come back

Come in from the cold

Into the warm

I feel like fire

Guiding you back home

As darkness falls

So everyone stands in line

Cos they wanna stay alive

To wait alone

No dog no bone

And then you find it's over

Still it tears your heart

To slip away

From the crowd

But if you have

What it takes

To return to where

All the world

Knows your name

Then que sera

Let's go sailing on

There's a wise man

In every fool

I say come back

Come in from the cold

Into the warm

I feel like fire

Guiding you back home

As darkness falls

I say come home

Leave it all behind

And settle down

I feel my love

Can give me what I want

For all time

So que sera

Let's go sailing on

There's a wise man

In every fool

I say come back

Come in from the cold

Into the warm

I feel like fire

Guiding you back home

As darkness falls

I say come home

Leave it all behind

And settle down

I feel my love

Can give me what I want

For all time

For all time

I feel like fire
