Every Time I See You

Par Sarah Vaughan

Album : The Complete Roulette Sarah Vaughan Studio Sessions - Disc 1

Every time I see you

I sigh a little sigh

Because I realize that I am so in love with you

Every time I kiss you

You take me, take me by the hand

And I'm in some enchanted land

Where all my dreams come true

When you're close beside me

My life's full of marvelous, crazy things

It's no wonder my heart is tired

It's no wonder my heart is tired

It's just plain tied up, tied up

So, never, never leave me

When you go away

Each day is just another day to hurry through

But I live again

Every time I see you

Every time I see you
