# The Night

Par Scooter

*Album : Excess All Areas - DVD2*

Rumble in the jungle!

AAAHHH!

Back on the mic I got the sound

Holding you down, down to the ground

Speaking the melody

Who out there got the skills to test me?

I've been here for far too long

It's time to break out

It's time to be strong

Beats going crazy inside my head

Do you feel alright?

**Here comes the night**

**All my friends are talking to me**

**What's this love I see?**

**I know you can make it right**

**I'm still waiting now**

**Waiting for the love I need**

**If you want me too**

**There's something don't understand**

**I don't know...**

Yeah!

**All my friends are talking to me**

**What's this love I see?**

**I know you can make it right**

**I'm still waiting now**

**Waiting for the love I need**

**If you want me too**

**There's something don't understand**

**I don't know...**

Don't be afraid, it's just my work

Comin' up bringing the words

Soon I'll have ya movin' in time

It ain't my fault, just the lyrics that rhyme

As I chop, change, rearrange

Choose and refuse, cause of fame

Gonna getcha hot like a burning flame

Everything's alright

**Here comes the night**

**All my friends are talking to me**

**What's this love I see?**

**I know you can make it right**

**I'm still waiting now**

**Waiting for the love I need**

**If you want me too**

**There's something don't understand**

I don't know...

Yeah!

All my friends are talking to me

What's this love I see?

I know you can make it right

I'm still waiting now

Waiting for the love I need

If you want me too

There's something don't understand

I don't know...

Waiting for the love I need

If you want me too

There's something don't understand

I don't know...
