Take Me Away

Par Scotty Sire

Album : Take Me Away

I don't wanna be here

Take me away

I don't wanna be here

Take me away

Festival coming up, it's so last minute

I don't wanna go but my friend got me tickets

A five hour drive, we arrive at the campsite

Put our phones away 'cause there ain't any Wi-Fi

No-one to talk to except who you're with

So we post by the car and pass around a fifth

Trying to fit in, I drink 'til I'm sick

The gates open up and it's time to head in

Did my friends slip Molly in my drink?

Starts to hit me and then we sing

"I'm on my way, I'm on my way

We're on our way, we're on our way"

I don't wanna be here

Take me away

I don't wanna be here

Take me away

I don't wanna be here

I don't wanna be here

I don't wanna be here

(Take me away)

Night hits and I'm standing

Still while a crowd full of bodies is dancing

Music is loud, lights are so blinding

I can't see my friends but they're right behind me

Feeling the beat, I turn to my left

Girl of my dreams and now I'm obsessed

Move a bit closer, I ask for a name

I couldn't hear but it started with K

Just like our first kiss, it was pure bliss

I found love in a place I thought was hopeless

Now I'm glad I stayed

I come back every year but I still say

I don't wanna be here

Take me away

I don't wanna be here

Take me away

I don't wanna be here

I don't wanna be here

I don't wanna be here

(Take me away)

I don't wanna be here

I don't wanna be here

I don't wanna be here

(I don't wanna be here)
