Piranha

Par sepultura

Album : Revolusongs

Slicing jaws, a way of life

Brought up to waste mankind

Loki's pets his little children

Deadly every time

Trapped in swamps by gates of Hell

Don't ever let them out

For if you do and they escape

You'll fight a bloody bout

Piranha kill in a pack, you'll run

Piranha start to attack, you'll done

If you think you can beat, deadly school

If you think you can live, you're a fool

Gates of Hell are old and cracked

They tumble and they fall

Out rush, a bloody wall of death

To kill anything at all

Their sole mission is to kill

Strip your bones and flesh

Rip out your eyes, tear off your face

An agonizing death

Piranha kill in a pack, you'll run

Piranha start to attack, you'll done

If you think you can beat, deadly school

If you think you can live, you're a fool
