# Under (Explicit Album Version)

Par Sevendust

*Album : Alpha*

Crawling out of the bottom where my every thought,

My every thought is consuming

Give me some excuses (I need to know)

**If I was under, could I see myself on the floor?**

**If I should trip inside my mind**

**Would I be under control of it all?**

(give me time – give me time – give me)

What you think will help me

My teeth chatterin with every thought

I need some prayers to be answered

(I – believe) I'll be choking on my mind soon

Why won't you help me?

(one more time I expect to get shit)

Give me some excuses (you don't give a fuck)

**If I was under, could I see myself on the floor?**

**If I should trip inside my mind**

**Would I be under control of it all?**

(Help me)

(Help me)

**If I was under, could I see myself on the floor?**

**If I should trip inside my mind**

**Would I be under control of it all?**

Control of it all...

(Help me)

(I under)
