I can make you feel good

Par Shalamar

Album : Fetenfetzer - Black Dancegrooves-Party

I didn't realize

Until I heard your voice that I had dialed your number

I was so surprised

I just held the phone

And I apologize

But I had to recover

From overwhelming feelings of love, for you girl

I admit I saw it coming cuz lately

You've been on my mind, ooohh

(I just stopped by)

I decided I'd stop on by

(Because I had to)

Oooh, baby

(Because I had to)

Now there's so many reasons

I can tell you girl

You need to find a way over to me

But it was hearing you again

So many memories

Of how we were way back when

I used call you up to go out, on a date

Girl, the same feelings that came over me then

Has brought me here today

So I

(I just stopped by)

I just stopped by

(Because I had to, because I had to)

I had to see you one more time

(I just stopped by)

I just stopped by

(Because I had to)

You used to be my girl

(Because I had to)

And there might not be another for me in this world

Oohhh, gee you look the same to me girl

And if there's any change I'd say it's for the better

Please realize

The change I been through

Have made me wonder girl,

If you could love me like I do

Or if you're giving your love to someone else

I guess I got to find out for myself

To give me piece of mind

And oooooohhhhhh

(I just stopped by)

I just stopped by

(Because I had to)

I had to see you one more time

(Because I had to)

One more time

(I just stopped by)

I just stopped by

(Because I had to)

Oooooohhh, baby

(Because I had to)

Just stopped by

(I just stopped by)

I just stopped by

(Because I had to)
