Live Free (See Me Running)

Par Shane & The Saints

Album : -

I've had a feeling, I feel it all day

I can't keep moving on this way

I'm losing my mind in this life

And I gotta pack it up one more time

Start living that American Dream

By the time that you see me running (it's like it calls to me)

By the time that you see me running

I'll be living that American dream

By the time that you see me running (it's like it calls to me)

By the time that you see me running

You'll know I'm living free

City lights, in my mind, hold me back from where I belong

The riverside, mountains high, ocean calls me like a song

By the time that you see me running (it's like it calls to me)

By the time that you see me running

I'll be living that American dream

By the time that you see me running (it's like it calls to me)

By the time that you see me running

You'll know I'm living free

By the time that you see me running (x2)

You'll know that I'm living

By the time that you see me running (it's like it calls to me)

By the time that you see me running

I'll be living that American dream

By the time that you see me running (it's like it calls to me)

By the time that you see me running

You'll know I'm living free

You'll know I'm living free

Living that American dream
