Tell Me Where You're Going

Par Silje Nergaard

Album : Silje

Back on the highway

Down on the road

You wanna tell me

- girl, I gotta go alone

You wanna go alone?

I'll take the chance

I want to go with you

You've heard the wind blow

heard it before

This time it's different

Packed and headed for the door

You gotta find a way

I'll take the chance

and help you find a way

In your eyes

the shadow and the light

In your heart

I want to go, I want to go with you

Tell me where you're going

I am going too

Tell me where you're going

I will go with you

Where are we going

What's down the road

Where's the wind blowing

Will we ever really know

We gotta find a way

We'll take a chance

and we will find a way
