Shout Asia (feat. Yoon Band)

Par Slank

Album : Bajakan

Lets sing together

Lets dance tonight

Lets all together

We stop the fight

It doesn't matter what we are

We maybe come from the far

Don't ever underestimate our voices

'Cos they will reverbetrated thru out the world

I don't need no political solutions.

And I don't superpower dictations

What we need is the whole world to hear

Shout Asia... Shout Asia ...Shout Asia

We got this funky feeling

everytime I play the music
