Foreign Body

Par Sleeping Pulse

Album : Under the Same Sky

In search of open doors

It slides from man to man

With its infected hole

It siphons all it can

Thief

Liar

Whore

Freak

Two-Faced

Infected

Leech

I have spat you

From this tainted heart

Recognise you

For just what you are

Herein this prose there lieth

How despised is your creed

In the scene that you sucked for

I recognise you for just what are

Corpus alienum

For years it hid and devoured

Til toxic animus

My system pushed it out

I have spat you

From this tainted heart

Recognise you

For just what you are

Herein this prose there lieth

How despised is your creed

In the scene that you sucked for

I recognise you for just what are

When the Earth and Sun collide

Change can never be denied

How its landscape lies

We'll never understand
