It's Your Life

Par Smokie

Album : The Concert - Live (Remastered 2016)

Who said the web of life is woven in a dream

'Cause your life is filled with dreams you can't believe.

So the only way you live with it is acting every scene

And you play the part so well, that you deceive

Now and again I find you ain't got a friend

Who knows,

I come and I go,

But it's your life...

It's your life

It's your life

Though the world is overcrowded you still found an empty place

And I know he leaves you helpless and confused.

And your search for love has often left you staring into space

Just another broken heart, so what's the use?

How many times have I been so hard to find?

You know

I come and I go,

But it's your life...

It's your life

It's your life

How does it feel when he's not around?

Can he be real when he can be found nowhere?

Who lit the flame upon the candle tonight?

And who let herself be lit so easily?

And who let it burn until the early morning light

And in the early morning gave herself to me?

And so,

My love,

You know

That it's your life...

It's your life

That it's your life...

It's your life

It's your life

That it's your life...
