Cannon Fodder

Par Sodom

Album : M-16 CD

I feel like someone's watching me

Don't know where the enemy is

The night brings bad dreams to my mind

Maybe the girl that's by my side

Potential killers extremely mauled

Machine gun fire all around

Into the eye of a hurricane

The ultimate end

I got no power to survive

Empty thoughts of suicide

Psychotic wounds that never heal

You put the crown of thorns on me

Cowards in the grip of fear

A fox the chicken disappear

Creation of the lifeless rules

No return

All my heros

Fighting legions

Crucified in flames

Cannon fodder

Rivers of red

Russian roulette

Gambling hypocrites

Cannon fodder

No scream will ever intimidate

Upon the dark side of a man

Walk among the bursting grenades

Ghosts of vietnam penetrate

Burning towns up over there

Seaching freedom death parade

Snipers pointing accurate

Living on the edge

All my heros

Fighting legions

Crucified in flames

Cannon fodder

Rivers of red

Russian roulette

Gambling hypocrites

Cannon fodder

I feel like someone's watching me

Don't know where the enemy is

The night brings bad dreams to my mind

Maybe the girl that's by my side

Potential killers extremely mauled

Machine gun fire all around

Into the eye of a hurricane

The ultimate end

All my heros

Fighting legions

Crucified in flames
