# Forest of incantus

Par SoulsPELL

*Album : Labyrinth of Truths*

Who dares to enter my calm domains?

I hear my little friends' complaints

Turn back while there's still some life in you

Or I will force you myself

Feel nature's revenge against men

**A greet to beauty, a greet to the beast**

**It's nice to welcome you here at my feast**

**Over the deserts will flourish my leaves**

**In deep deception you must live**

Endless seconds, a brief eternity

I will not surrender to your trees

A river that flows down-up

Straight to your mind

An old talking tree

Your thoughts are not blind

The closer you are to the truth of Amon

The further you get yourself from home

Why do you think we might understand?

Human life worth less than ants

What is essential in life, anyway?

Whole mankind will just fade away

**A greet to beauty, a greet to the beast**

**It's nice to welcome you here at my feast**

**Over the deserts will flourish my leaves**

**In deep deception you must live**

**I'm falling down**

**I'm falling down**

**I'm falling down**

**I'm falling down**

I'm falling down

I'm falling down

I'm falling down...
