All the Time

Par Starflyer 59

Album : The Fashion Focus

We don't make the world go round

We don't know much about

Life and little things

We don't make it happen

We don't make it happen

All the time

Love a world that's not your own

And pretty soon we'll go home

Find some real love

That'll make us happy

That'll make us happy

All the time...
