Illuminate (Sub Focus & Wilkinson)

Par Sub Focus, Wilkinson

Album : Illuminate

It's the energy that we make

Electricity we create

When you're near to me, I'm awake

You're the light in me, illuminate

You're the light in me, illuminate

It's the energy that we make

Electricity we create

When you're near to me, I'm awake

You're the light in me, illuminate

Illuminate

It's the energy that we make

Electricity we create

When you're near to me, I'm awake

You're the light in me, illuminate

You're the light in me, illuminate

You're the light in me, illuminate
