### My Direction (live)

Par Sum 41

*Album : Sympatico MSN*

**Perfection is my direction**

**Even if that's all I had**

**It's not like I need no correction**

**I just know that life's not so bad**

Picture this everyday kids that just can't find a way

Stuck in disarray can't find hope for better days

It's the degeneration of childhood frustration

In the last 30 years

Teenage suicide has increased 300% in North America;

It is the second major cause of death in Canada

**Perfection is my direction**

**Even if that's all I had**

**It's not like I need no correction**

**I just know that life's not so bad**

When will all my problems disappear

Am I just going crazy from the fear

Oh my oh my I'm going far past the brink

The pressure's like a weight

And I still can't think straight

**Perfection is my direction**

**Even if that's all I had**

**It's not like I need no correction**

**I just know that life's not so bad**

I've met my destinations

So what's left to complain about

With all these aggravations

Building till the seams fall out

I'm running my mouth dry

With every time I lie

**Don't tell me without a doubt**

**This dumbfound luck has all run out**

**Don't tell me without a doubt**

**This dumbfound luck has all run out**

**Perfection is my direction**

**Even if that's all I had**

**It's not like I need no correction**

I just know that life's not so bac
