drowning

Par Super American

Album : Gangster of Love

(Jesus rides a Harley)

Tell me is it crowded

Or am I the only one?

I feel like I'm drowning

Help me breath underwater

I don't know what to call it

I never meant to fall in love

Leave it up to the stars

Everything is connected

I want you to death
But I won't waste my breath
Chasing the same high
Can't find it since you left
I love how you let go
Of everyone you know
And it keeps them coming back
I wish I was like that

If you hold me I will die

Don't wait until another time

Tell me is it crowded
Or am I the only one??

I feel like I'm drowning

Help me breathe underwater

I don't know what to call it

I never meant to fall in love

Leave it up to the stars

Everything is connected

Tell me what you want if you don't want me

Leave me in the wake, I can swim you'll see

We could learn a lot from each other

How could you tell me someone loves you better

(Everything is connected)

Tell me what you want if you don't want me

Leave me in the wake, I can swim you'll see

We could learn a lot from each other

How could tell me someone loves you better now

At night I hear the waves

And I can see your face

Forever and always

If you hold me, I will die

Don't wait until another time

Tell me is it crowded

Or am I the only one?

I feel like I'm drowning

Help me breath underwater

I don't know what to call it

I neve meant to fall in love

Leave it up to the stars

Everything is connected

Tell me what you want if you don't want me

Leave me in the wake I can swim you'll see

We could learn a lot from each other

How could tell me someone loves you better

(Everything is connected)

Tell me what you want if you don't want me

Leave me in the wake I can swim you'll see

We could learn a lot from each other

How could tell me someone loves you better now

(Everything is connected)
