Better Than You

Par Swans

Album : White Light from the Mouth of Infinity (2015 Remaster)

I'm so glad I'm better than you (I'm so glad)

I'm so glad I'm better than you are

I'm so glad I'm better than you (I'm so glad)

I'm so glad I'm better than you are

Sit here, now look in the mirror

Something's wrong, your face is distorted

Feel the flow, there's blood in your body

And you can see clearly every heartbeat you make

Close your eyes, touch your mouth in the mirror

That's the wound that is made where the past meets the future

I'm so glad I'm better than you (I'm so glad)

I'm so glad I'm better than you are

And I can see clearly through this veil of reality

And I can remember the feel of your skin

No, you never knew me and you never will

When nothing's there, nothing is concealed

I'm so glad I'm better than you (I'm so glad)

I'm so glad I'm better than you are

I'm so glad I'm better than you (I'm so glad)

I'm so glad I'm better than you are

Yes, we're better than you (we're better than you)

We're better than you are (we're better than you are)

Yes, we're better than you (we're better than you)

We're better than you are (we're better than you are)

Yes, we're better than you (we're better than you)

We're better than you are (we're better than you are)

Yes, we're better than you (we're better than you)

We're better than you are (we're better than you are)

Yes, we're better than you (we're better than you)

We're better than you are (we're better than you are)

Yes, we're better than you (we're better than you)

We're better than you are (we're better than you are)

Yes, we're better than you (we're better than you)

We're better than you are (we're better than you are)

Yes, we're better than you (we're better than you)

We're better than you are (we're better than you are)

Yes, we're better than you (we're better than you)

We're better than you are (we're better than you are)

Yes, we're better than you (we're better than you)

We're better than you are (we're better than you are)

Yes, we're better than you (we're better than you)

We're better than you are (we're better than you are)

Yes, we're better than you (we're better than you)

We're better than you are (we're better than you are)
