One (Your Name)

Par Swedish House Maffia feat.Pharell

Album : Now Dance Summer Part 2 - 2010 - CD1

I wanna know your name

You just killed me, could you at least do that?

I wanna know your name

Or better yet, stand there

Just do that

I wanna know your name

You just killed me, could you at least do that?

I wanna know your name

Or better yet, stand there

Just do that

Hey yeah

I wanna know your name...

Know your name...

I wanna know your name...

Know your name...

Uh!

Ooh yeah

I wanna know your name

You just killed me, could you at least do that?

I wanna know your name

Or better yet, stand there

Just do that

Hey yeah!

Ooh yeah!

I wanna know your name...

Know your name...

I wanna know your name...

Know your name...

Uh
