# Fever Of Love

Par Sweet

*Album : 06-Off the record*

You took the apple from the tree

And gave the fruits of love to me

But love is blind I couldn't see

Those neon nights you'd left behind

You should have laid it on the line

Procrastination stole my time

The day has come the years will go by

Things have changed have opened my eyes

And she tried to hide the feeling inside

**But you know and you know and you know**

**The fever of love is like a hundred above**

**You are the one that turns me on**

**The fever of love is like a hundred above**

**I got you under my skin**

**You are my adrenalin**

**I've got your love in my veins**

**It's gonna ease the pain**

In my heart, in my heart

Good vibrations came today

God only knows they're gonna stay

But psychic waves can fade away

You are the guardian of my soul

Who'll turn my memories to Gold

I'll still be younger when I'm older

I'm feeling high on pure emotion

I know I could cry an ocean

And I can't hide my feelin' inside

**But you know and you know and you know**

**The fever of love is like a hundred above**

**You are the one that turns me on**

**The fever of love is like a hundred above**

I got you under my skin

You are my adrenalin

I've got your love in my veins

It's gonna ease the pain

In my heart, in my heart...
