A Boss - Live

Par Syleena Johnson

Album : Acoustic Soul Sessions (Live)

See I ain't looking for nobody that can pay my bills
Got my own house and I got my own wills
Got my own money when I want my own thrills
Got my own bottles popping in the old chill
Now what I need is a man who's with it
He's just like me he knows how to get it
And hold me down and fight for me with the quickness
And gives me good loving knows when I need it

I'm not be played like a fool

Just give it all I got and getting nothing

That's not gonna work for me, no

I'm just trying to get what I deserve

Not trying to waste my time unless it's worth it

Cause it's not that easy to win my heart

He can get it, he can get it if he's a boss

He can get it, he can get it if he's a boss

He can get it, he can get it if he's a boss

Just like me, just like me

He can get it, he can get it if he's a boss

He can get it, he can get it if he's a boss

He can get it, he can get it if he's a boss

Just like me, just like me

Now some fellows got the heads out

But nothing lasts when it comes free

I need a man that's willing to work ah,

When it comes to loving me

He gotta wanna be the ceo, and try to own the company

And won't play games with my heart

Treat me just like a queen

I'm not be played like a fool

Just give it all I got and getting nothing

That's not gonna work for me, no

I'm just trying to get what I deserve

Not trying to waste my time unless it's worth it

Cause it's not that easy to win my heart

He can get it, he can get it if he's a boss

He can get it, he can get it if he's a boss

He can get it, he can get it if he's a boss

Just like me, just like me

He can get it, he can get it if he's a boss

He can get it, he can get it if he's a boss

He can get it, he can get it if he's a boss

Just like me, just like me

I know that he won't be perfect

But I know when he goes my way

He will be worth the wait

Now I'm sick I'm going out of my mind

Falling in love with the wrong guy

When all I need is a boss

He can get it, he can get it if he's a boss

He can get it, he can get it if he's a boss

He can get it, he can get it if he's a boss

Just like me, just like me

He can get it, he can get it if he's a boss

He can get it, he can get it if he's a boss

He can get it, he can get it if he's a boss

Just like me, just like me.
