The Day After Tomorrow

Par Take That

Album : Nobody Else - Everything Changes - Take That & Party

Only one way to describe, this is deceit I am hiding

Never been here before, never wanna see here again

I've strayed from a long term lover

And found greater lust from another

My conscience is keeping me awake and shouting at me all night

So I'll tell her the day after tomorrow, maybe today

So I'll tell her the day after tomorrow, or is that too late

Being loved is a big responsibility,

You can never give too much back

You know it's so easy to walk away and leave that lady flat

My life's feeling crowded with possessions, am I lucky or sad

Is it time to turn away and lose everything I had

So I'll tell her the day after tomorrow, maybe today

Moving in circles, decisions chasing me round and round
Why's life never easy, or do we make it hard for ourselves
And when we find love we need to look for something new
'Cos when it's all over, you always feel the need to be loved
Like she always loved you
